

Videojet LifeCycle Advantage™

Your pathway to productivity

Your time is valuable. Managing your printer is not always your first priority, but a little proactivity can go a long way. Instead of waiting for unplanned downtime, you can anticipate and address issues long before they become problems.

Videojet LifeCycle Advantage™ uses intuitive software, data-driven reporting and quickly-accessible expert advice to help users **maintain, recover** and **improve** their coding operations.

Improve

Partner to be proactive with productivity, not reactive with downtime

Maintain

Accelerate recovery with unmatched remote and onsite capabilities

Recover

Harness printer data analytics and remote and onsite support to get back online quickly

Videojet LifeCycle Advantage™

Service and productivity solutions to help meet your needs and improve your operation.

Preventive maintenance and health checks to help maintain optimal performance

Remote alerts to accelerate response to potential printer issues

Maintain

Relevant, on-demand, remote and onsite training based on printer and operation-specific data

Resolve most issues in minutes, not days

Remote diagnosis of failed part(s) and definition of corrective actions for faster onsite repair

Recover

Remote recovery with Videojet technical experts one click away

Leverage the largest service footprint, delivering unmatched onsite response time

Proactive knowledge of printer needs to help address issues before they occur

One-on-one, onsite consultative services to help optimize and improve your application

Improve

Predictive analytics and reporting, providing insight on continuous improvement opportunities

You can count on us for comprehensive support to continually help maintain, recover and improve your coding operations.

Videojet LifeCycle Advantage™

* Remote Service features are available in select regions worldwide. Please contact your local Videojet representative for availability information for your location.
