Marking, coding and labeling solutions

Large character marking product guide
**Videojet® 2300 Line Inkjet Printers**

These large character inkjet printers deliver high quality codes on cases and cartons, helping to reduce costs associated with pre-printed cases and labels.

- 180 dpi resolution for high quality codes such as alphanumerics, bar codes, and graphics on corrugate cases and shipping containers
- Small, single-unit system with printhead heights of 0.7", 2.1" and 2.8" (17, 53 and 70 mm)
- Consistent print quality from printhead micro-purging with every print and reduced cost of ownership from unique ink-recycling circuit

**Marsh® PatrionPlus® Inkjet Printer**

This large character printing system can operate both Valve Jet and HR Series printheads simultaneously to deliver high-resolution and dot matrix characters from one system.

- Print heights from 0.25" to 2.0" (6 to 50 mm) at print speeds up to 200 fpm (61 mpm)
- Drives up to sixteen printheads, with each printhead capable of printing up to three lines of text
- Choice of high resolution or dot matrix printheads for porous and non-porous surfaces

**Videojet® 9550 Print & Apply Labeler with Intelligent Motion™**

Maximize your line uptime, increase productivity and remove the risk of mislabeling packages with the most advanced and user friendly print and apply labeling system.

- Optimizes maintenance labor by eliminating more than 80% of wear parts
- Minimize operator touches with on-board label database for accurate job selection
- Virtually eliminate label jams and simplify set-up with Direct Apply™ for mainstream top or side applications
- Zero mechanical adjustments during day-to-day operation

**Marsh® 8000 Inkjet Printer**

Combines high resolution printing with an advanced Windows®-based user interface, allowing users to print with up to eight auto-purge printheads.

- True generic case coding at 150 dpi with speeds up to 200 fpm (61 mpm)
- Control up to two independent production lines
- Auto-purge offers ink and/or solvent purge and automatic printhead cleaning before and after production

**Videojet® 2120 Inkjet Printer**

Easy-to-use printer for applying single or twin-line alphanumeric codes to a variety of products or packages. A choice of printheads and inks enable printing on a wide range of porous and nonporous materials.

- Print heights up to 2.0" (50 mm) at speeds up to 371 fpm (113 mpm); printhead dependent
- Multiple printhead and ink options provide application flexibility
- Easy operation reduces coding errors and guided installation reduces setup/startup time
- Advanced message management features
CLARiSUITE™ Solutions

These solutions help ensure the right code is on the right product from line to line and plant to plant, increasing productivity, reducing costs and protecting your brand.

- Set up multiple printers from a single location, minimizing time needed to stop the line
- Centrally stored and managed job data helps avoid delays in starting production runs
- Code Assurance features help ensure the right code is on the right product
- Printers can be maintained from one single screen without having to visit each printer individually

Videojet® Service

Videojet offers global service and support with over 800 direct service and technical support resources in 24 countries and factory certified distributor support in 100 additional countries.

- On-site installation, commissioning and operational support
- 24 X 7 help desk / technical support operations in 16 countries
- Proven responsiveness to meet on-site service requirements
- Service offerings can be configured to your unique needs including training, specialized service contracts offering part replacement, and preventive maintenance and supplies

Videojet® Supplies

The Videojet supplies family provides a full range of high resolution and valve jet inks specially formulated for optimal performance in Videojet and Marsh printer systems. Extensive testing of the ink and printer combination helps ensure consistent performance.

- Over 60 inks available to meet a wide variety of application needs, including color options for select printers
- Bulk size packaging available for high volume users
- Videojet fluids are engineered to enhance the performance of Videojet printers and increase production efficiency

Videojet® Accessories and parts

Videojet offers a wide range of high quality replacement parts to help ensure your printer is operating at peak performance. Our extensive line of accessories helps deliver worry-free installation and production efficiency.

- From customized bracketry and cleaning kits to printer stands and large capacity external fluid containers, we offer accessories to meet a wide range of application specificfs
- Original, high quality genuine parts from the largest on-hand inventory
- Replacement parts are manufactured in an ISO environment with automated test fixtures for many of our mission critical parts
Peace of mind comes as standard

Videojet Technologies is a world-leader in the product identification market, providing in-line printing, coding, and marking products, application specific fluids, and product life cycle services.

Our goal is to partner with our customers in the consumer packaged goods, pharmaceutical, and industrial goods industries to improve their productivity, to protect and grow their brands, and to stay ahead of industry trends and regulations. With our customer application experts and technology leadership in Continuous Inkjet (CIJ), Thermal Inkjet (TIJ), Laser Marking, Thermal Transfer Overprinting (TTO), case coding and labeling, and wide array printing, Videojet has more than 345,000 printers installed worldwide.

Our customers rely on Videojet products to print on over ten billion products daily. Customer sales, application, service and training support is provided by direct operations with over 4,000 team members in 26 countries worldwide. In addition, Videojet’s distribution network includes more than 400 distributors and OEMs, serving 135 countries.
