

## Continuous Inkjet **Videojet® 1860**

The Videojet 1860 provides advanced warning of clogging and EHT trips. The SIMPLiCiTY™ interface greatly reduces operator interactions, and the optional VideojetConnect™ Remote Service minimizes the need for on-site service calls.

In a world where setting higher standards is a constant reality, production line equipment needs to be more intelligent to help enable even higher line performance. The Videojet 1860 Continuous Inkjet printer helps your team reset the bar for performance. Predictive capabilities provide up to 8 hours advanced notification of the most common downtime generating faults under normal operating conditions. With the SIMPLiCiTY™ interface, operating the 1860 will become second nature for your team. And with optional VideojetConnect™ Remote Service, your team can access Videojet experts to help improve productivity and troubleshoot potential issues in ways that other printers can't.

### Performance without surprises

- Predictive capabilities provide up to 8 hours advanced notification of the most common downtime generating faults under normal operating conditions
- An industry-first ink build-up sensor provides advance warning of clogging and EHT trips
- Recover in minutes from unplanned interruptions with optional VideojetConnect™ Remote Service - minimizing the need for on-site service calls

### Minimal touch design

- Significantly reduce operator error through advanced Code Assurance
- Access guided, embedded video instruction for routine printer tasks
- Complete your preventive maintenance with 3 easy-to-replace SmartCell™ components
- Access technical experts at the touch of a button through optional VideojetConnect™ Remote Service

### Natural fit in your line

- Lower your cost of operation with up to 20% more efficient solvent usage\*
- Withstands harsh washdown environments
- Hygienic design following industry guidelines
- Innovative printhead design improves speed by up to 20% in certain applications
- Integrate with factory systems using standard industry protocols with optional workflow modules

### Built-in evolution

- Do more in the future by upgrading your printer with optional workflow modules
- Reduce unplanned downtime by accessing updates to predictive capabilities
- Operate more effectively with detailed runtime analytics and reporting, partnering with Videojet Service to get better over time
