- Expansion/upgrade capabilities
- Full control of product addressing, messaging and personalization
- Inside/outside printing
- Selective pocket control (up to 8 pockets)
- 1 to 4 printer stacker control

**Get confident. Contact us today.**

### We Build Confidence...

#### **The Videojet® VIP 9100 finishing control system**

offers a powerful, full-featured controller at an affordable price for small to mid-size applications. It is more than a simple I/O control with PLC technology. Based on the widely proven VIP 9500 (NT) system, and providing full control of tracking, stacking and reorder (previously only available from the Videojet VIP 9500 controller), the VIP 9100 is a powerful entry-level line controller.

The VIP9100 system provides affordable production control. It is based on the industry-standard VIP 9500 (NT) control system that most major publishers rely on for selective control of addressing and messaging on magazines, catalogs and newspapers.

The VIP9100 controller is a process and ink jet printer control system ideal for applications at the end of a binder, folder, poly-wrapper, newspaper gripper or other piece of finishing equipment. It is available in five basic configurations:

- MailBase
- Mail Table
- Newspaper
- Inside/Outside
- Selective

It can be set up on a network with a file server or in stand-alone operation. The controller enclosure, coupled with quick-disconnect I/O enclosures, permits portable use when a dedicated control system cannot be justified.

Installation and training are included with the purchase of the VIP 9100 system, providing you a full turnkey solution. In addition, the on-line help answers your questions and guides you effortlessly through the system.

#### **Videojet TotalSource® Service**

The **TotalSource** program is the finest and most complete technical support system in the business. These services include everything from expert applications assistance, operator training and a full spectrum of maintenance services. The **TotalSource** program ensures total customer satisfaction.

**Support when you need it**
